EMISSIONS CONTROL DIAGNOSTIC WORKSHOP

*Eliminate emissions control comebacks
With Advanced diagnostic Skills and Strategies*

***MIL-related emissions comebacks cost automotive service businesses millions of dollars every year.**

***The Emissions Control Team from NAPA is ready to help you eliminate these costly returns through a first-of-its-kind, advanced Emissions Control Diagnostics Workshop designed specifically for automotive repair professionals.**

This new workshop covers proven converter diagnostic procedures & strategies that will help your team make fast, accurate & complete decisions related to PO420 codes and any other suspected emissions control issue.

Training will feature:

ASE Master Technician Instructors with L1 Certification from one of the leading automotive training providers in North America

Comprehensive Emissions Control Diagnostics Manual

Specific scan tool tips & tricks

Alternative tools & techniques

Tool limitations & traps

Case studies related to real-world emissions faults
